Reviews of the **Popcorn (Mini Edition)** by Frank Asch

This is one of the best children's book on the market. My six grandchildren heard me reading this book over and over. I ordered one to give each of them when they have their first child if I live long enough to experience that. If not, I have given explicit instructions to the next generation how the books are to be distribute. Reading to little ones is so important. The bonus is having that special cuddle time with a book they memorize and enjoy for a long time. My oldest grandson is a Marine, and he said he will never forget that book and we will have a special bond forever. Thank you Frank Asch for being such an inspired writer for children.

So glad to find this book. I have to laugh that almost every scene in this book depicts something that would be considered bad parenting today-- leaving the kid home alone; kids wearing "inappropriate" costumes; kids using stove unattended-- but it's still a fun, silly Halloween story with great illustrations -- and who doesn't love popcorn?

I remember this book fondly from my childhood. I wanted to share it with my kids (3 and 6 years old) and they love it too. I always loved the books that suspended reality and have some silly hijinks.

Had to buy this Frank Asch book for my Granddaughter, Olivia, because my Son, her Dad, was a Big Fan of 'Sand Cake' also by Frank Asch! 'Popcorn' is full of laughs & Giggles. When parents are away, a Party insues & Everyone brings Popcorn! Popping ALL Fills the House Full of Popcorn!! What to do?! Need to get this book to find out! Haha. Deliciously funny... ????

Kids will like what happens when mom and dad go out and the kids have a party. Everyone brings popcorn to it. Parents will know what happens but the kids will delight in it. I have a craving for popcorn!

Read it to my kids in the early 90s. Bought copies for my future grand kids. Great book. Great memories.

This was one of my favorite books as a child (I'm almost 40) and I finally found a copy on here. This book has become my three youngest kids favorite book now too! Ages 8, 4, 2.

Bought this for my nephew, as I used to read this book to my sister, over and over when we were little. It was our favorite book.

Wish the book was hardcover though, as I am not sure how long the paperback version will last, and I 'd really like my nephew to be able to read it to my niece in a few years.
