Detective Houser wants nothing more than his retirement, but when a murder case involving the WMM firm lands on his desk, he can't avoid it. All of law enforcement knows that WMM Advertising, also known as We Make Millionaires, is one of the biggest and hardest-to-penetrate fraudulent telemarketing firms in the state of Georgia. A tape recording of a man's death may finally help Houser make a case against the firm. Calling in Alexis Greenspan, aka Nina Coles, the top sales associate in the company, Houser is determined to use her to find out the company's secrets--no matter who's hurt in the process.

Reviews of the *The Golden Hustla* by Cary Hite, Wahida Clark

MegaStar

Wahida Clark does it again, well almost. The Golden Hustla starts off very promising but then leaves you flat. Nina Coles is a hustler who is on the run after a botched robbery leaves her brother and best friend dead. She moves away leaving behind her kids and her former life to give herself a fresh start. Nina stumbles into a golden scam and continues yet another hustle. This story starts off great but doesn't keep the momentum going.

The best part of The Golden Hustla is the update of Tasha from The Thug series. I enjoy Wahida's writing skills and she is one of my favorite authors, but this book was just book was just lack luster. Sorry Ms. Clark this was not your best work just an overall ok read.

Arashilkis

Wahida Clark never disappoints me. I love all her books and this one is no exception. The story get started and doesn't stop. All the way through, you're wondering what's gonna happen next. Miss Nina Coles is a hustler to the bone, whether it's legal, or illegal, for her children or for her man, she is about her business and on her grind. Given the hand she was dealt, she did her thang and is making it happen for her, her children and her man. Although the story ends, I am interested to know whether or not Nina and her new man will make it or if he will be too hung up on his past and even if her past will come back to haunt her.

Mash

I am in SHOCK!!!! Wahdia is one of my favorite authors..... I have read ALL of her books and would highly recommend any of her other books, but she fell of the ledge with this one. I have read 70 percent of this book and have struggled to get this far. I read the other reviews and thought "it couldn't be that bad". Trust me it is. I guess all good authors have their one bad day...this was hers! Wahdia.... Please bring my Thug series back asap! "Justify My Thug" was awesome! One of your loyal fans!

Ericaz

Not one of Wahida's best books. I can see her trying to move into a different direction though and I commend her for that, but this book was not it. It was waaaaaaaaaayyyy to unbelievable the way Nina came up that quick after feeling like she had lost everything. Then the undercover detective Rick, come on!! So you meet a woman and just like that you take on her plight, quit your job for 50-60 million dollars all this for someone you BARELY know..Too much too fast!!! I know Ms. Clark has got to grow in terms of her writing and story telling, but this one was not it for me...I pray that there isn't a sequel, because it will be a huge mess...She never told the back story on how Cream was connected to WMM and how come his babymama wouldn't/didn't take the job, it was just too much going on without truly telling the story... I don't know how these other readers giving 5 stars were able to give such a rating, seeing that this story was all over the place, they seem to just be excited that a new book was released, yeah that's it, cause it couldn't be for the content of this book. See that's what happens when you have too many characters and you don't know how to bring them together and make the story flow and still keep readers interested. Don't get me wrong, it had it's moments, but not enough to sustain the entire book. The ending was so bizarre and soft and Rinaldo was the fall guy for everyone (with the whites of my eyes showing) are you serious!!!! And so Nina and Rick get away scott free with all the money.. So please don't tell me a sequel will be Rinaldo doing his time and coming after Rick and Nina for his 56 million, I beg you don't do it!!! I'm not totally finished with Ms. Clark's books, I'll wait her new one coming out next year before I make that decision.

Jockahougu

This book was trash!!! It was hard to stay focused and follow the plot. The only reason I kept reading was to see how the book connected to the Thug Series. The only connection was Rick and one bathroom scene. Not worth the money, time, or read. Two thumbs down.

Stanober

Love this book

Buridora

If you are a Wahida Clark fan you will definitely enjoy this book. The main characters of this story come from a short story by Clark- in the anthology "What's Really Hood". She also incorporates characters from her "Thug Lovin'" series as I like to call it. I think I am going to reread at least a few of these stories as it has been a while and it might help a little in remembering who is who. This book, however, can stand on its own without reading the past books- but knowing the background of all the characters just makes it that much better.

I like to read series from beginning to end- if you are wondering how it goes, here is the order: "Thugs and the Women who Love Them," "Every Thug Needs a Lady," "Thug Matrimony," and then "Thug Lovin". The characters of this series are intertwined into this new story. This story picks up from "Makin Endz Meet" a short story in "What's Really Hood" anthology (Good read, too).

I'd also suggest the "Payback" series- "Payback is a Mutha" and "Payback with Ya Life"- it's really gritty but so detailed that you can see and feel like you really know the characters.

Just found out a new sequel- "Justify my Thug" is coming next spring- can't wait!
WAHIDA YOU DONE IT AGAIN, I'M NOT GOING TO SAY TO MUCH BECAUSE PEOPLE ARE STILL WAITING ON BOOKS, HOWEVER THIS BOOK IS FULL OF DRAMA, LUST, LIES, AND BETRAYAL. THE BOOK IS REALLY GOOD. I COULD NOT PUT IT DOWN. THE BOOK IS THE TRUTH.....
