Political speechwriter Becca Matlock is at the top of her professional game, working for the re-election campaign of New York's popular governor, when she receives the first phone call: "Stop sleeping with the governor or I'll kill him." Although Becca isn't sleeping with the governor, the menacing ultimatums persist. The police suddenly stop believing her, even after the stalker murders an innocent person to prove his point.

When the governor is shot in the neck, Becca flees for the safety of coastal Maine, choosing to hide not only from the stalker but also from the authorities. For sanctuary, she goes to Riptide, the home of a college friend—where she soon finds herself at even greater risk...

Reviews of the [Riptide \(An FBI Thriller\)](#) by Laural Merlington, Catherine Coulter

RuTGamer

Bought this with no intention of ever playing it. I don't even have a turntable. I bought this LP because I love Palmer's look here. He was 36 when Riptide was released and in his prime. Robert Palmer passed away in Paris in September, 2003 at the age of 53. Such a lovely talent and loss.

anonymous

I usually enjoy Catherine Coulter's books, but this was not an enjoyable read. Short choppy sentences throughout. Would not recommend it. And I am not sure I will buy any more of her books.

Lli

I had never read this author prior to this book, and it is unlikely I will again. The conversations were inane and ridiculous, and the author seemed to use the same phrases over and over. Did an editor actually read this novel before it was published? One of the few books I have actually not finished and never will.

I've deleted it from my Kindle.

Pass it by. You have better things to do with your time.

Tane

Enjoyed the suspense around every corner, never knowing what was coming next. As usual Savage and Sherlock played an important roll in the book.

Mr.Savik

Best book I have read in months. I read 1 or 2 a week. So many turns, kept me guessing. And the final few chapters were totally unexpected. Never saw that coming.

WyŮrÑ Wi o€Tø

A great plot. Counter always does a good job on her mystery books. Whatever comes next-generation I will read it too.

TheSuspect

Kept you guessing. Well written. Didn't want to put it down. Had a couple of sleepless nights trying to finish

Catherine Coulter always mixes 2 stories into one in a seamless way. I love Savich and Sherlock.
