**Other formats:** mbr azw lit mobi

Bernard Berofsky formulates a concept of determinism in terms that will be constructive for the continuing libertarian-determinist debate. His discussion will interest those who want a deeper understanding of this metaphysical doctrine, and anyone whose fundamental concern is with the nature of human responsibility and the possible threats to it posed by determinism.

Originally published in 1971.

The **Princeton Legacy Library** uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.
